The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

You should impose a 10 year moratorium
on new dams, ^{and surface storage} until the state tries ^{science-based} solutions
that are environmentally and economical sound.
Your major emphasis should be on 21st-
century solutions — reclamation, recharge of aquifers,
conservation, recycling, groundwater storage,
watershed management, restoration. You must find
ways to reduce toxics, pesticides and other pollutants
in our water.
